## SUMMARY

Junior Software Developer with a Bachelor of Science in Information Technology (2023) and real-world experience in full-stack web development. Proven ability to independently deliver production-ready solutions, including multiple deployed landing pages and the ongoing redevelopment of a legacy Barangay Management System (from FoxPro to Laravel-based web application). Skilled in PHP (Laravel), JavaScript, TypeScript, and Python, with a strong focus on backend development, API integration, and scalable, user-centric systems. Adaptable, self-driven, and eager to grow within a collaborative and structured development team.

## SKILLS

- **Programming Languages:** C#, Java, VB .Net, Python, PHP, JavaScript, TypeScript
- **Frameworks & Libraries:** Laravel, Livewire, Volt, Flask, Express.js, Node.js, React, Bootstrap, Tailwind CSS
- **Database Systems:** SQL (MSSQL, MySQL, PostgreSQL, SQLite), NoSQL (MongoDB)
- **Tools & Methodologies:** RESTful APIs, MVC Architecture, Unit Testing (Jest), SAP Crystal Reports, Git, GitHub, Visual Studio Code

## WORK EXPERIENCE

### Junior Software Developer

Apr 2025 - Present

Alpha Intelligence Technology Corporation

- Delivered three live, responsive landing pages with fully integrated contact forms within the first month.
- Responsible for the full development cycle - from database design to deployment - ensuring clean, maintainable, and scalable code in a solo developer role.
- Gained strong experience working independently on large systems, balancing multiple priorities, and adapting quickly to expanding requirements.

### Web Developer Intern

Feb 2023 - May 2023

B&D IT Consultancy

<https://bditconsultancy.com/>

- Supported backend feature development and bug fixes in Laravel-based projects.
- Collaborated with a small team to meet client deliverables on time and improve overall code quality.
- Worked in a full-stack development environment with Tailwind CSS, Laravel, and MySQL.

## PROJECTS

### Project Management App

Jun 2024 - Jan 2025

Sole Developer

<https://github.com/AlfredPaguio/Project-Management-App>

- Developed a **full-stack** project management system enabling users to create, update, and track projects with associated tasks, deadlines, and statuses.
- Utilized **Laravel** with **React (Inertia.js, shadcn/ui and react-hook-form)** to deliver a responsive and intuitive interface.
- Integrated Laravel Breeze for authentication and managed user roles/permissions via **spatie/laravel-permission**.

### URL Shortener

Mar 2024 - Mar 2024

Sole Developer

<https://github.com/AlfredPaguio/URL-Shortener>

- Developed a **RESTful** shortening service with built-in analytics for click tracking.
- Focused on clean API design, performance, and secure request handling.

### Business Website

May 2023 - Jul 2023

Web Developer Intern

B&D IT Consultancy - <https://bditconsultancy.com/>

- Improved frontend performance, accessibility, and SEO responsiveness
- Modernized old business website site using Laravel and Tailwind CSS.
- Refactored code for maintainability and implemented updates based on client feedback.

### Ecommerce Web Scraper (Capstone)

Sep 2022 - Jan 2023

Software Developer (Team of 3)

<https://github.com/AlfredPaguio/Ecommerce-Web-Scraper>

- Collaborated on a **Python-based scraping tool** to compare products from Shopee and Lazada.
- Deployed the application on **Heroku**, acquiring hands-on experience with cross-platform deployment.
- Leveraged **Flask**, **Selenium**, and **Beautiful Soup** for efficient web scraping and robust data processing.

## EDUCATION

Bachelor of Science in Information Technology

2019 - Jul 2023
